

PARTEK

FULLY MANAGED SECURITY SUITE

IS YOUR CRITICAL DATA PROTECTED FROM THE LATEST THREATS?

SECURITY APPLIANCE

Traditional Anti-Virus is no longer enough to protect against the latest threats like Ransomware. Attackers are coming at small and medium sized businesses from all angles and defending against those attacks is becoming more complex.

CLOUD FILTERING

Keeping your company protected, and ultimately your data safe, requires a layered solution that includes a combination of hardware, software, cloud, and user training solutions.

END POINT PROTECTION

Partek provides a fully managed Security-as-a-Service solution which provides the following benefits:

USER EDUCATION

- Advanced End-point threat protection
- Cloud secured email security
- Enterprise grade security hardware
- Fully monitored with monthly reporting
- End user training and education
